

AWL Pooches off to the Muttropolis Salon

The Animal Welfare League will be working with the newly opened Muttropolis Dog Spa to offer their long term dogs a well deserved makeover.

Once a month the Muttropolis Chauffeur will shuttle the pooches to the Sanctuary Cove salon, where they will be walked, groomed, pampered and promoted to the residents of Sanctuary Cove.

Marketing Manager Brooke Whitney says it is a good opportunity to get the AWL dog's exposure to the public who may not normally think to visit a shelter when adopting an animal.

"People don't realise that we have all sorts of breeds to suit every family situation and house size".

"It is so cold out at the shelter, especially for the smaller dogs at the moment so we really want to re home the animals that come into our care as quickly as possible.

Muttropolis hope to give the dogs a relaxing, few hours away from the shelter where they will be spoiled, washed and groomed to perfection in a bid to make them more appealing to prospective new owners.

Salon Owner Sandra Gordon says the Muttropolis team are committed to the welfare of animals and are excited to be able to provide greater awareness in the community while trying to help re home some of the lost, surrendered and abandoned animals of the Gold Coast..

The Muttropolis Monthly Makeover comprises a premium day spa package including luscious spa wash, & aromatherapy massage followed by a prestige style cut. As well as an exclusive monogrammed crystal collar supplied by posh pets, marina mirage.

The Animal Welfare League dogs will be available to meet at Muttropolis Tuesday the 18th of July between 10-1.
